M.H. SOS

Problem

Problems we observe and want to solve.

Problem 1

High rate of suicides
and depression
cases

Problem 2

Patient's loved ones
uninformed about
patient's mental
health

Problem 3

Not able to
recognize and cure
the mental health
disease they are
facing

Solution

Solutions to the
problem we discussed

Solution 1

To inform patient's loved ones about his present condition and send his present location.

Solution 2

To rectify and cure the mental health problem through which patient is suffering

Solution 3

To provide a counseling or mental health check up at a minimal rate

Service we provide

M.H. SOS is a system designed for recognizing patient's mental health with the help a typed sentence from the patient.

If our system recognize something wrong in the sentence it will automatically send patient's health condition and location via e-mail to his/her loved one's email address.

Birth of this idea

A simple timeline on how this idea came in our mind, when we thought to implement.

2020

The journey begins in 2020 when number of suicidal case went sky up that's when we thought we need to do something about it.

2021

In 2021 we begin to work upon solving the problem told early and made a rough model for our idea.

2022

That's when we started to implement our idea through a basic model.

Timing

The reason that it's the right time for our product or service.

Reason

After some research I came to that there are many mental health cure app and websites but none of them do what we do.

To send a SOS or notification to patient's loved one with attach location of the patient this is something that is unique and as well as life savoiur.

Target Market

Who are the customers you want to cater to?

Target Market 1

Mental health patients who are already suffering from depression

Target Market 2

Teenagers who take wrong steps while being accused or during a heart break.

Size the Market

28 Crore

Total Number of Depressed people in the world according to WHO.

1 in 7

More than one in seven adolescents aged 10-19 is estimated to live with a diagnosed mental disorder globally

7,00,000

More than 700 000 people die due to suicide every year

Business or Revenue Model

Subscription
model would be a
major thing
through which we
can make revenue

We can also make
revenue via
health specialist
like a borker.

Ads can also play
a vital role while
making revenue.
